

Home Seller Services

Last Updated Saturday, 09 January 2010

The Real Estate Industry is changing and today there are more home selling solutions in the [Profile.market] area to choose from than just the Traditional 5% or 6% Home Listing plan.

There is nothing wrong with the old traditional way of selling a home - It has worked well for decades. However technology, including the Internet has brought about numerous new real estate business models that offer you more flexible and cost effective Home Listing, Marketing, and Selling Solutions that you may want to consider.

How Much can a New Real Estate Business Model Save You? This really depends on how much, if any, of the home selling work you would like to do yourself. Some [Profile.market] Realtors offer an MLS listing with a FSBO option so you do some work to save some money. But perhaps the best way to sell faster for a higher price and a lower cost in today's market is a "Full Service for Less" Realtor offering a Home Listing, Marketing and Selling Campaign at a very reasonable fee. The choice is yours, and we are here to help.

At The Real Estate Savings Center you can request more details on local home selling solutions by emailing one of our [Profile.market] Home Selling Specialists. Simply submit the short form below and we will forward it along so you can get an idea of how much more of your equity you might keep at closing by selecting a Full Service for Less program. It is certainly worth comparing to those Old Traditional 5% and 6% sales plans, don't you think?
